FACULTY BRIEFING

# Helping Build Their Professional Identity

The LinkedIn + Resume Method — and How to Mentor It

📍 Ansar English School, Perumpilavu ⏰ 3:30 PM – 4:30 PM

# Why This Matters for Your Students

**7** seconds

A recruiter spends on your resume before deciding.

**75%**

of resumes are rejected by ATS before a human ever sees them.

LinkedIn is checked **BEFORE** every internship call. Empty profile = invisible. Bad profile = rejected.

**Students are judged on this before they ever reach an interview.**

# What We'll Cover Today

## The LinkedIn Method

What a strong Headline, About, and Skills section looks like

## The Resume Method

How students build a 1-page ATS-friendly PDF using Claude + Overleaf

## Mistakes to Flag

The red flags that separate a strong profile from a weak one

## Your Role as Mentor

How to guide students through this on their own time

# The Headline Formula That Gets Noticed

**[Role / Identity] | [Skill 1] | [Skill 2] | [Future Goal]**

## ✅ GOOD Examples

- Electronics & Instrumentation Student | IoT | Embedded Systems | Seeking Internship 2026
- Class 12 PCM Student | Python | Machine Learning Enthusiast | Engineering Aspirant
- Commerce Student | Finance & Tally | MS Excel | CA Foundation Aspirant

## ❌ BAD Examples

- *Student at ABC School*
- *"Looking for opportunities"*
- *(Blank)*

# About Section — What Gets Ignored vs What Gets Read

| ❌ BAD | ✅ GOOD |
| --- | --- |
| "I am a hardworking student who loves to learn." | *"Class 12 Electronics student exploring IoT and circuit design."* |
| "I have a passion for technology." | *"Completed Arduino LED project; currently learning Python."* |
| "Looking for growth opportunities." | *"Seeking 2026 internship in embedded systems or automation."* |

**Key principle: SPECIFIC beats VAGUE. Every single time.**

# Mistakes That Kill a Student's Profile

1. **Blank headline**

   Looks like a bot. Recruiters skip immediately.

2. **"Student" as your only description**

   Zero context. Why should anyone connect with you?

3. **No profile photo**

   Profiles without photos get 14× fewer views. No exceptions.

4. **Copy-pasted generic skills**

   Recruiters can tell. It signals you didn't bother.

5. **Zero activity / no posts**

   Profile dies in search rankings. Post once a month minimum.

# The Method ✅ Covered.

Now:

# The Resume

This is what separates students who get internships from those who don't.
Here's the method — and how Claude + LaTeX make it fast.

# ATS: The Robot That Rejects Resumes

## What is ATS?

ATS = Applicant Tracking System

→ Used by 90%+ of companies
→ Scans for keywords, formatting, structure
→ Fancy designs, columns, colors = FAIL
→ You never reach a human reviewer

Canva Resume

🎨 Colorful
Two columns
Icons & tables
Fancy fonts

❌ ATS FAIL

LaTeX Resume

Clean text
Single column
No graphics
Standard fonts

✅ ATS PASS

That beautiful Canva resume a student spends 3 hours on? ATS can't read it.
The LaTeX version gets through. In under 2 minutes.

# The Master Prompt Students Will Use in Claude

```
You are a professional resume writer. Create a complete,
ATS-friendly, 1-page resume in LaTeX for a student:

Name: [Full Name]            Email: [email@example.com]
Class: 12  |  Stream: Science    Phone: +91-XXXXXXXXXX
School: [School Name]  |  Board: CBSE
LinkedIn: [linkedin.com/in/username]

Skills: [Python, C, Arduino, MS Excel, Canva]

Projects:
1. [Name] – [Tools] – [Short description]
2. [Name] – [Tools] – [Short description]

REQUIREMENTS: LaTeX only. No colors. No columns.
Bullets: Action Verb + What + Result. Max 1 page.
```

**Share this prompt with students → they fill in their own details → Claude returns ready-to-compile LaTeX code.**

# How You Can Support Students This Week

## This Week

→ Share this session's resources with your students

→ Review a few student headlines and give quick feedback

→ Encourage students to connect with classmates and alumni

## This Month

→ Flag strong student projects worth adding to a resume

→ Offer to write 1 LinkedIn recommendation per student

→ Remind students to post their workshop reflection

**A few minutes of faculty feedback can be the difference between a profile that gets noticed and one that gets ignored.**

# Free Tools to Point Students Toward

## LinkedIn

*linkedin.com*

Connect, post, apply — your professional network

## Overleaf

*overleaf.com*

Free online LaTeX editor — compile your resume here

## Claude (AI)

*claude.ai*

Free AI assistant — write, improve, fix your content

## NPTEL

*nptel.ac.in*

Free certified courses from IIT/IISc with certificates

## GitHub

*github.com*

Host your projects — link them in your resume

## Canva

*canva.com*

For LinkedIn banner only — NOT for your resume!

# Briefing Complete.

✅ **The Method**
**Headline, About, Skills + ATS Resume**

✅ **Your Role**
**Mentor, Review, Encourage**

*Your students' professional identity starts with your support.*

**This week:** Review a headline · Offer a recommendation · Point students to Claude + Overleaf · Flag strong projects
